

Sichem[®] seal

PLANICHEM
SICHEM SOLUTIONS

PTFE seals

for the pharmaceutical
and food processing industries

Planichem is an Italian manufacturing company specialised in the processing of PTFE, graphite and all the main asbestos-free materials used for the production of gasketing materials, gaskets and semi finished products of high technical value.

The company's current structure has resulted from progressive developments over the years which have led to the engineering of unique processing and manufacturing methods.

Planichem manufactures leading-edge products and innovative solutions which are protected by international patents.

Planichem's underlying goal is to provide the best quality, as certified by all major independent examination institutes.

Our products are our best guarantee suitable for all types of customers and applications, both standard and critical.

For a detailed list of approvals, please visit the dedicated area on our website www.planichem.com

SICHEM® seals are specifically designed to withstand the demanding applications of the pharmaceutical and food processing industries.

SICHEM® seals are developed for processes ranging from cryogenic temperature up to +260°C and are suitable across the entire range of aggressive media. SICHEM® seals offer outstanding performances in terms of dimension stability, temperature and media resistance and sealing.

In compliance with:

USP Class VI
EN 1935/2004
FDA

SICHEM[®] seals for TRI-CLAMB connection

TYPE 2 FLANGED

TYPE 1 UNFLANGED

 <p>STYLE F1</p>	 <p>STYLE U4</p>	 <p>STYLE U1</p>
 <p>STYLE F2</p>	 <p>STYLE U5</p>	 <p>STYLE U2</p>
 <p>STYLE F3</p>	 <p>STYLE U6</p>	 <p>STYLE U3</p>

SICHEM[®] seals offer the best technical solution for all TRI-CLAMP standards, the most common connection in the pharmaceutical and food processing industries. Produced with modified and restructured ptfe, SICHEM[®] seals show excellent mechanical properties: no extrusion and no cold flow and a high resistance to almost all chemicals. This allow SICHEM[®] seals to be safely used in all the cleaning and sterilizing processes.

PSW

Virgin premium grade ptfe based, medical grade according to USP Class VI. Also available with different elastomers insert.

PSB

Microstructured, reinforced Modified PTFE hollow glass microspheres filled. The homogenous distribution of hollow glass microspheres offers uniform density and a high adaptability.

PSG

Special blend of PTFE and 316 passivated stainless steel. Tested and proven to add stability and longevity to your process piping systems. Specifically designed for steam applications.
